To whom it may concern,

Re: Mr. Paul Davies.

This is to introduce Mr. Paul Davies, now of Petrie Qld, whom I have known for the past 20 years, at least.

Mr. Paul Davies developed his naturopathic and massage business in the city of Horsham around the time I began a new pharmacy in that city. Mr. Davies was widely known for his quality of practice and had clients coming from as far away as Portland, which is a 3-hour drive!

Mr. Davies sold his practice to move to Queensland, and his client base was about 6000 patients, which is remarkably large for a town size of 12,000 population. Our pharmacy developed an interest in traditional medicine and we began to admire Mr. Davies' work. Two of my pharmacists and myself completed diplomas in herbal medicine, and our lecturer, now Associate Professor Denis Stewart of Southern Cross Herbal School, described Paul as one of Australia's finest herbalists. This was particularly true in the area of endometriosis. Paul had developed treatment protocols for endometriosis, which were the acknowledged basis of the College protocols taught by Mr. Stewart throughout Australia.

Mr. Davies is also a remedial masseur of outstanding talent. Many of his clients who have continued to consult with us have expressed regret regarding his departure from the area, commenting on the expert and efficient manner in which he treated their muscular problems. Quite a number of those clients had been unable to gain relief from any other practitioner.

I can thus recommend Mr. Davies, as a naturopath & remedial masseur of considerable merit and renown in western Victoria and beyond. Mr. Davies had considerable respect from the medical community as well. One doctor often recommended patients to Mr. Davies, and we certainly were pleased to do so. I even encouraged my own wife to make use of his services.

Mr. Davies is a man of fine character and integrity. I have always found him to be honest and open in all his dealings. Whilst in Horsham he was a highly respected member of the Horsham community and of the church community of the Churches of Christ. Many of his clients still ask after him and his recent book "Super Health" is in the local municipal library, at the library's request. Many copies were sold to his former clients.

I feel Mr. Davies is a man of passion for his fellow man, and passion for natural medicine.

Yours faithfully

Des Lardner.

Pharmacist, nutritionist, homoeopath and herbalist
